

WINNEBAGO[®]

THE MOTOR HOME PEOPLE

1992 ADVENTURER

Putting The Home Back Into Motorhoming.

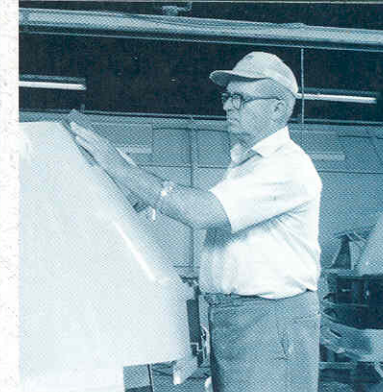

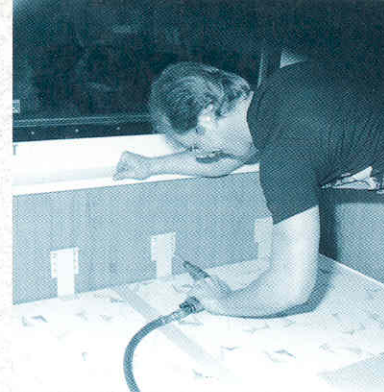

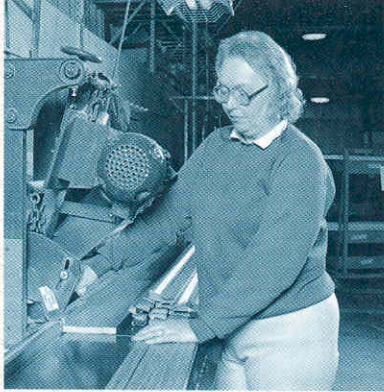

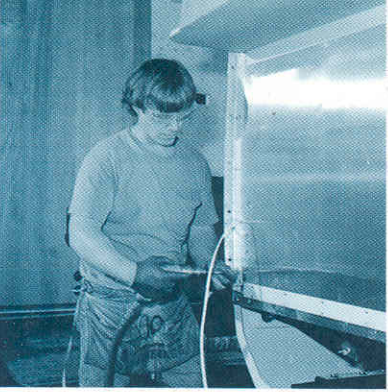

Welcome to Adventurer® - the new high storage, traveler-friendly motor home that began as a "clean sheet" design and is destined to wind up a classic.

Imagine... a motor home that's designed as you would design it yourself. With loads of basement and interior storage space. Eye-catching exterior styling. A beautiful, spacious living area that's meant to be lived in, *comfortably*. And throughout, simplified operating systems that are designed to work, *conveniently*.

That's Adventurer. Available in three designer floorplans and two lifestyle lengths, it's a motor home that's thoughtfully detailed, inside and out. What's more, Adventurer is comfortably priced, value priced, in the tradition of Winnebago.

We call Adventurer a breakthrough in Home Comfort Design. You'll call it the best idea in basement storage motor homes to come down the road in years.

Ready to roll: From the pass-through storage bays to the smooth Thermo Panel® sidewalls, Adventurer is smartly designed to the final detail. Note the expansive, wrap-around windshield with wide shade band, aerodynamic front end and stylish graphics. Radial tires and chrome wheel covers come standard.

An Inside Look At Liveability.

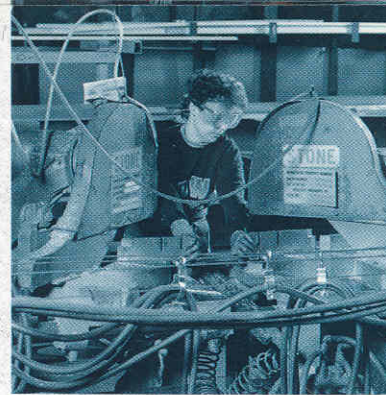

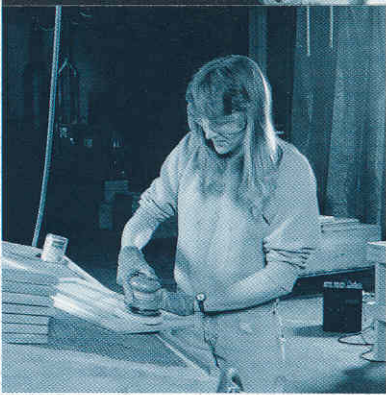

A **Home Comfort Design** interior has no equal, and Adventurer's is no exception. Open and inviting, it maximizes wall-to-wall spaciousness and floor-to-ceiling headroom. Fine furnishings, rich fabrics, warm wood tones and elegant accents blend together in the unified decor. Storage space abounds, above and below. And special interior appointments, the little things that make a motor home *feel* like home, are everywhere you look.

Form meets function: All the beauty and practicality of Home Comfort Design. Deep, wood-grain cabinets, with adjustable shelving and etched-mirror and solid oak doors, line the walls. Softly tinted windows welcome natural light. Both the sofa and dinette convert to comfortable beds, with easy-access storage space beneath the dinette seats. Above, the crowned, padded vinyl ceiling maximizes headroom while minimizing sound. Below lies 100% stain-free carpeting, covered by the industry's most extensive warranty (see page 6). Throughout, coordinated fabrics with Scotchgard™ Protector bring it all together.

Scotchgard™ is a registered trademark of 3M.

We have your color: Select the skytones of Tapestry or the earthtones of Navajo Brown - two beautiful, contemporary decor hues with timeless appeal.

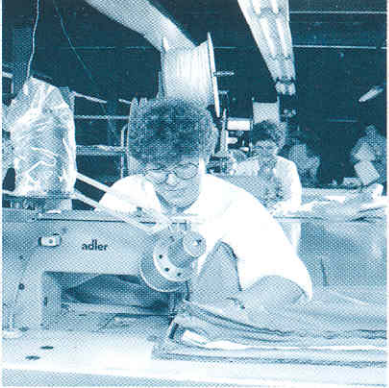

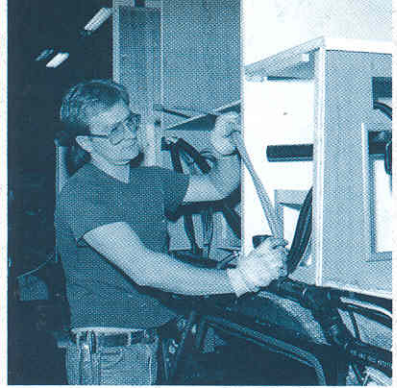

A bath with room: Included are a marine toilet with sprayer, rectangular sink with spacious countertop and an extra water pump switch. Also features a mirrored medicine cabinet, oak-doored cabinetry, makeup lights above another large mirror, screened tip-out window, single-piece shower surround with molded shelves and loads of elbow room.

A cab with a view: No step-up here - Adventurer's floor is level from front to back. The panoramic, wrap-around windshield casts a whole new light on visibility. Twin captain's chairs with lap and shoulder belts swivel around to double as living area recliners. Extensive overhead storage cabinets keep clutter to a minimum. The specially lowered, hinged instrument panel features traveler-friendly controls and tilts upward for easy electrical system access. Entertainment is provided by AM/FM-cassette stereo with cab and lounge speakers, along with optional color TV with remote speakers, VCR and 110-volt inverter. A rearview monitor and CB prep kit are available options.

Convenience is our specialty: Adventurer's spacious galley offers a full menu of name-brand appliances and convenience features, including a four-burner range with oven and storage drawer below, two 110 volt outlets, low-mounted microwave and flush-mounted refrigerator/freezer. Oak cabinetry provides abundant storage space, including drawers and a spice rack below the sink. The double stainless-steel sink features a flush-mounted, sliding cover for added work space. Popular options include an under-cabinet coffee maker, easy-care vinyl flooring and a water purification system for fresh tasting water instantly.

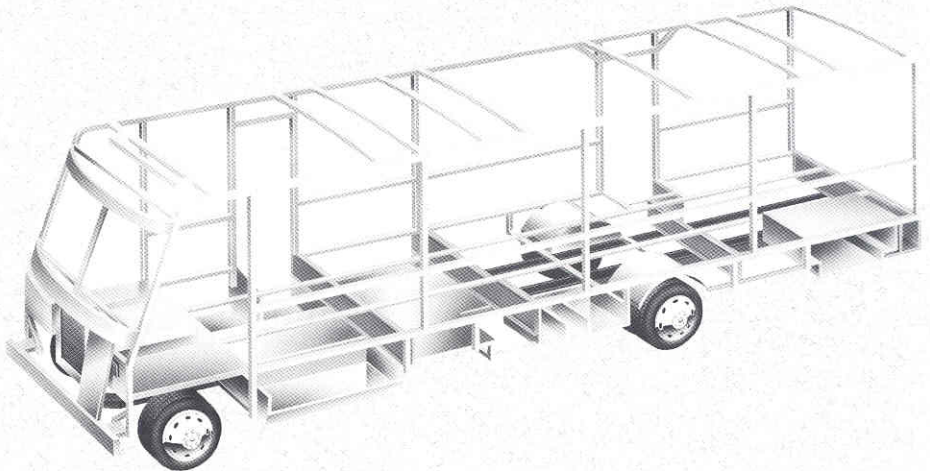

A New Direction In Innovative Design.

The concept of Adventurer began with Winnebago Industries listening to experienced motorhomers. They shared their ideas on storage space, interior comfort and convenient operating systems.

With their input in mind, Winnebago engineers went to work, utilizing computer-aided design (CAD) technology to create not just another motor home, but a motor home solution. CAD capabilities allow us to respond quicker with more flexibility to the wants and needs of motor home buyers, from the "clean sheet" design stage on through production.

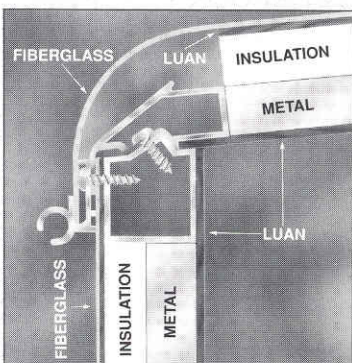

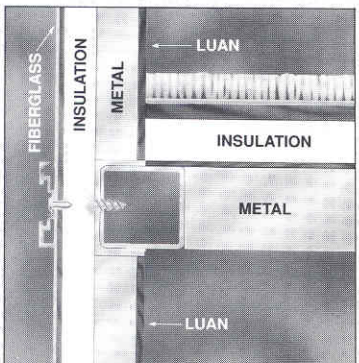

The results are impressive. Adventurer's raised floor provides up to 110 cubic feet of pass-through basement storage space, and leaves room for a central, under-floor furnace duct that enhances efficient heat distribution. Inside, we selected only top quality fabrics, carpeting, appliances and furnishings. Throughout the vehicle, easy-access operating systems were located intelligently, to enhance traveler-friendly usability.

One test drive and you'll agree: From every angle, Adventurer is designed as a motor home was meant to be.

- Extra-wide cab window shade band
- Windshield firmly mounted automotive-style in steel
- Steel cab, cab floor and dash substructure
- Central electrical box under hood
- Large, full sweep wipers mounted in steel
- Steel beam reinforced bumper mounted directly to chassis
- Computer-aided stress and weight distribution analysis
- Lined, steel storage compartments
- Aluminum underflooring resists corrosion
- Steel appliance tie-downs
- Welded aluminum sidewall and roof structure
- Chevrolet or Ford chassis availability, both with overdrive transmission
- Exterior access furnace maintenance
- Central under-floor furnace duct

- Rust-free, noise-reducing rotocast rear wheel wells
- Seamless water and holding tanks
- Standard radial tires, spare and wheel covers
- Large fuel tank capacity
- Solid steel floor riser system welded to chassis
- Sound-insulated steel generator compartment
- Rust-free aluminum rear bumper
- Interlocking roof/sidewall joint and sidewall/floor joint
- Standard class II hitch mounted directly to chassis
- Standard step-through roof rack and ladder
- Built-in awning rail
- Crowned, single-piece fiberglass roof w/10 yr. warranty
- Convenient stepwell coach and engine battery compartment
- Porch and stepwell light with assist handle
- Double electric steps

The custom extrusion of Adventurer's floor-to-wall joint locks the two in place - unlike the competition's method which utilizes screws to support the weight of the sidewall.

Winnebago Industries' exclusive locking joint system joins roof and sidewalls for maximum strength and stability. Note how the single-piece crowned roof overlaps the sidewalls for easy maintenance.

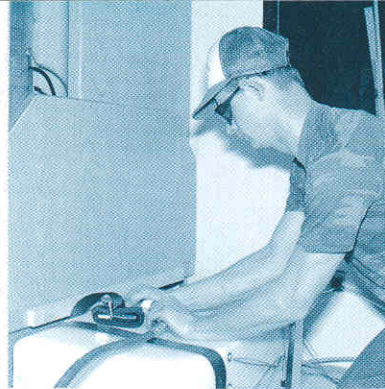

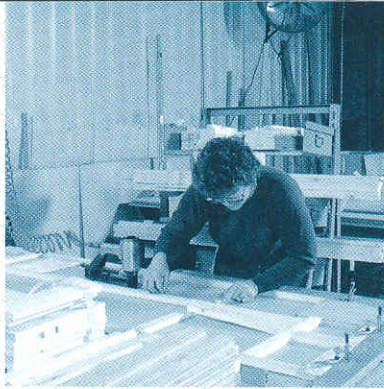

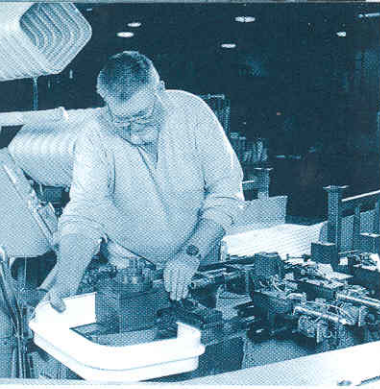

A MOTOR HOME CAN BE ANYTHING YOU WANT IT TO BE.

Can you do a better job by taking your product or service to people instead of waiting for them to come to you? In business, health services, education and government, Winnebago Industries Special Vehicles are serving as classrooms, showrooms, labs, mobile police stations and many other functions.

The Adventurer has a workhorse Special Vehicle cousin that provides all the cockpit comforts, load carrying capacity and systems (heating, air conditioning, etc.) of a motor home while leaving the interior open to your custom design.

Ask your Winnebago dealer for more information.

THE MOST COMPREHENSIVE PEACE OF MIND PACKAGE ANYWHERE.

Included with every 1992 Winnebago motor home. Only from Winnebago Industries.

Preferred Care Program

For the first year of new Winnebago motor home ownership, the Winnebago Industries Preferred Care Program provides exceptional peace of mind through a special 24-hour toll-free roadside service network.

Special Program Features:

- 24-Hour Nationwide Toll-Free Hotline - U.S. and Canada
Staffed every day of the year by experienced RV service professionals. Includes access to the following services.
- Emergency Road Service - 24-hour dispatched emergency road service and towing. Provided through a network of over 20,000 prequalified service locations, including Winnebago Industries dealers.
- 24-Hour Customer Service Assistance - Preferred Care representatives provide fast, immediate access for technical assistance questions and if needed, to qualified RV warranty service agencies nationwide. Customer service representatives help define service problems, make service appointments and give directions to the service location while the owner is on the line.
- Special Winnebago Owner Plastic I.D. Card and Service Guide - Card includes owner's identification and toll-free phone number information. The guide explains the program's services.

After the first year of ownership has passed, the Preferred Care plan can be extended, through the Winnebago-Itasca Travelers (W.I.T.) Club.

Customer First Warranty Plan

Also included with every 1992 Winnebago motor home is an impressive package of extended warranty coverage on carpeting, structural and exterior components. Winnebago Industries' vehicles lead the industry in structural integrity, which is reflected in their excellent resale value retention over the years.

Standard Warranty Coverage

Every Winnebago motor home is covered by Winnebago Industries' standard 12 month, 15,000 mile limited warranty. See your dealer for full details.

Exceptional Carpet Protection

All 1992 Winnebago motor homes feature a revolutionary new 100% stain-free carpeting that offers beauty, comfort, tremendous wear and fade resistance and an amazing easy-to-clean stain fighting ability. It features a new bounce-back "Z-coil" design to prevent matting. The color is inherent in the carpet's fiber so that it can be easily spot cleaned without affecting its beauty. This is backed by a special five year limited fade and stain warranty, a ten year limited wear warranty and lifetime limited anti-shock protection. See your Winnebago dealer for complete details.

Extended 36 Month/36,000 Mile Structural Warranty

Following the expiration of the standard Winnebago Industries warranty and for the remainder of the period of 36 months or 36,000 miles on the odometer, whichever comes first, Winnebago Industries will warrant the following to the first motor home owner:

- 1) Sidewall and backwall Thermo-Panel® construction against delamination. Thermo-Panel is the bonding of the exterior skin and the interior paneling to an insulating core material.
- 2) Exterior fiberglass panels used in the construction of the roof, sidewalls and backwall will remain free from surface fiber exposure and will not rust, rot, corrode, or require painting or refinishing (normal pigmentation change excepted) under normal conditions of use.

Additional 10 Year Exterior Fiberglass Coverage

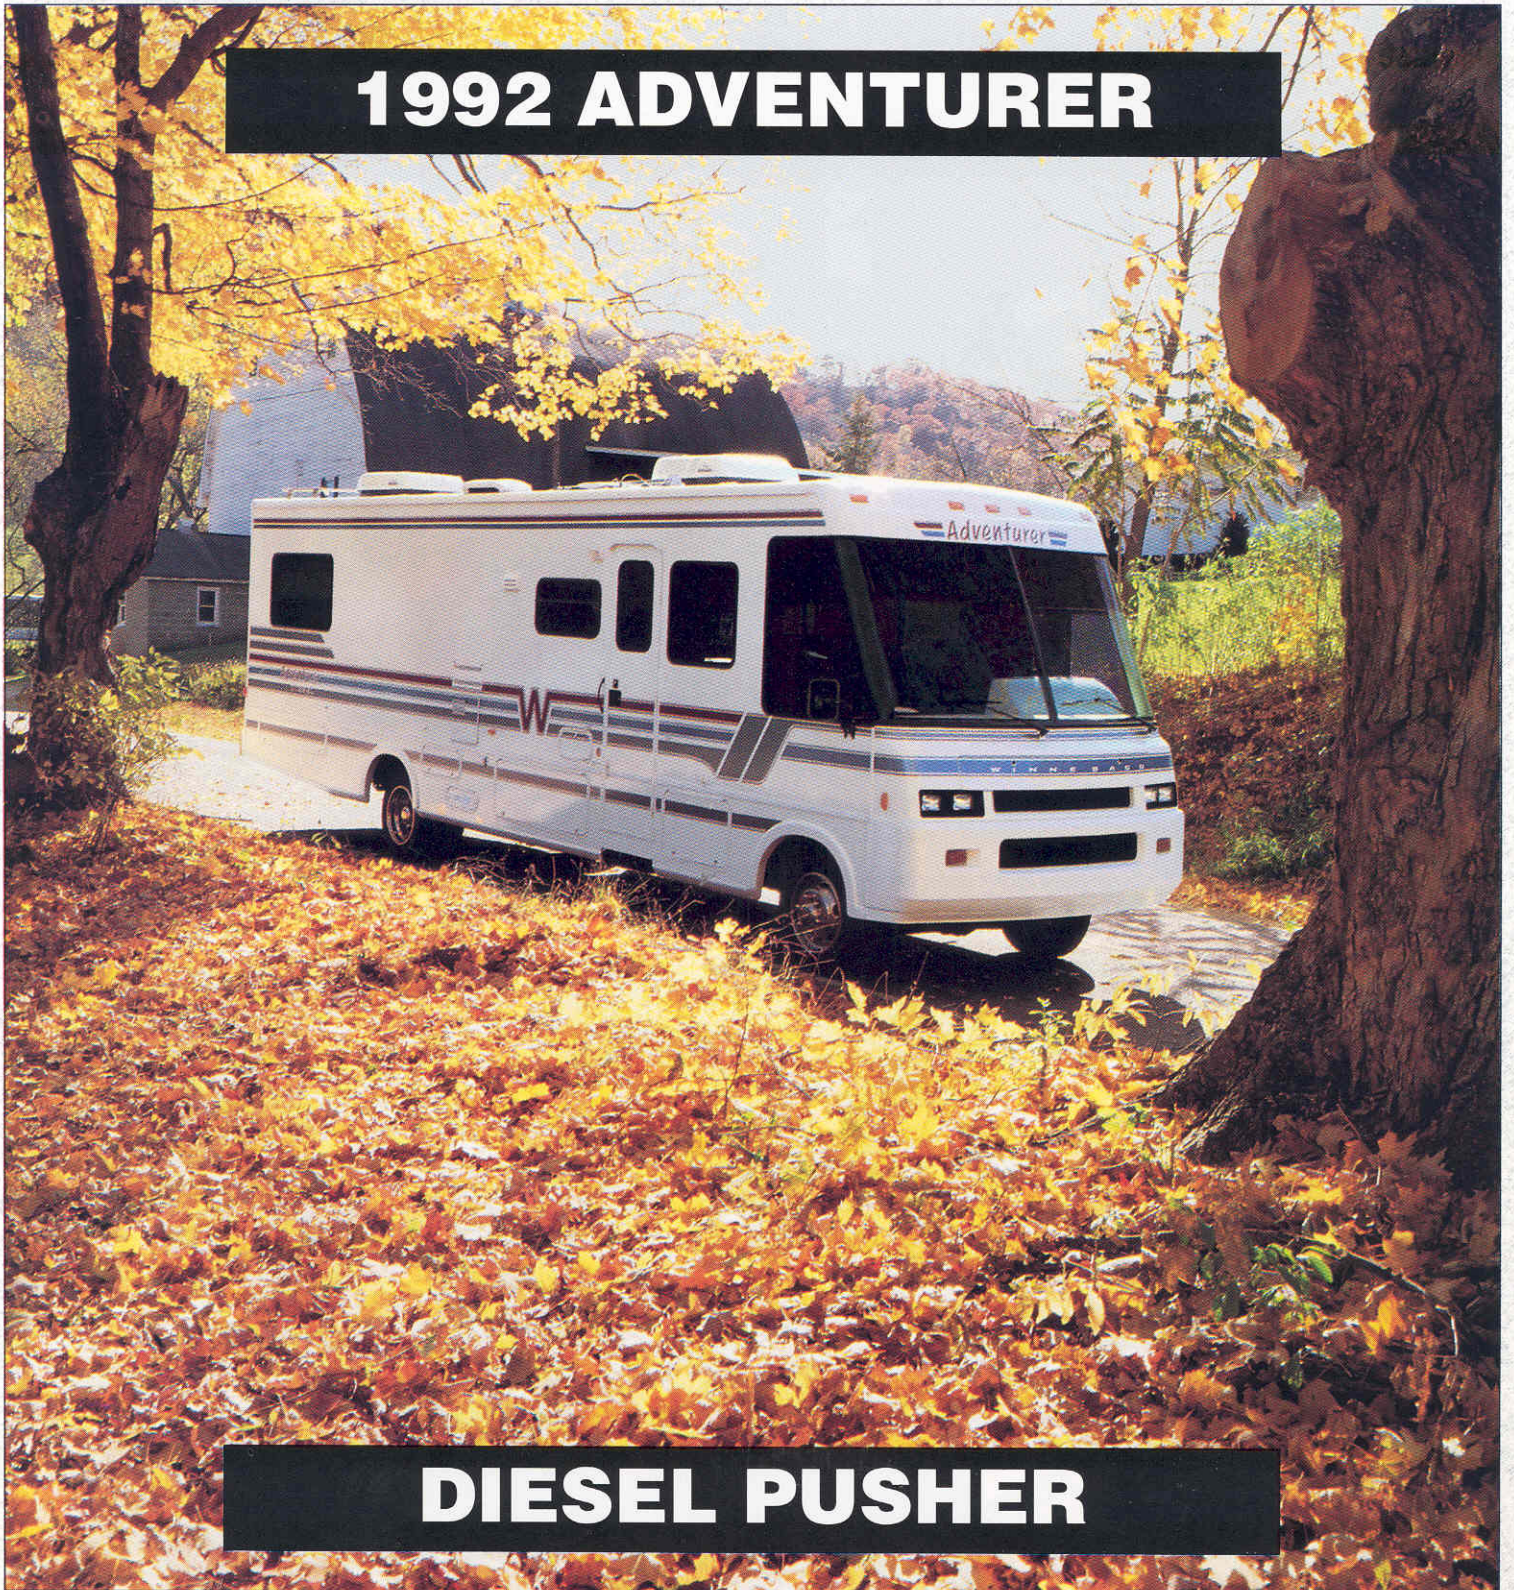

As an indication of Winnebago Industries' confidence in their products, limited warranty coverage on roof and sidewall surface materials for the period of 10 years from date of purchase, for the first owner only, is included with every 1992 Winnebago motor home.

See your dealer for complete details on the Winnebago Industries Customer First Warranty Plan coverage.

WINNEBAGO[®]

THE MOTOR HOME PEOPLE

1992 ADVENTURER

DIESEL PUSHER

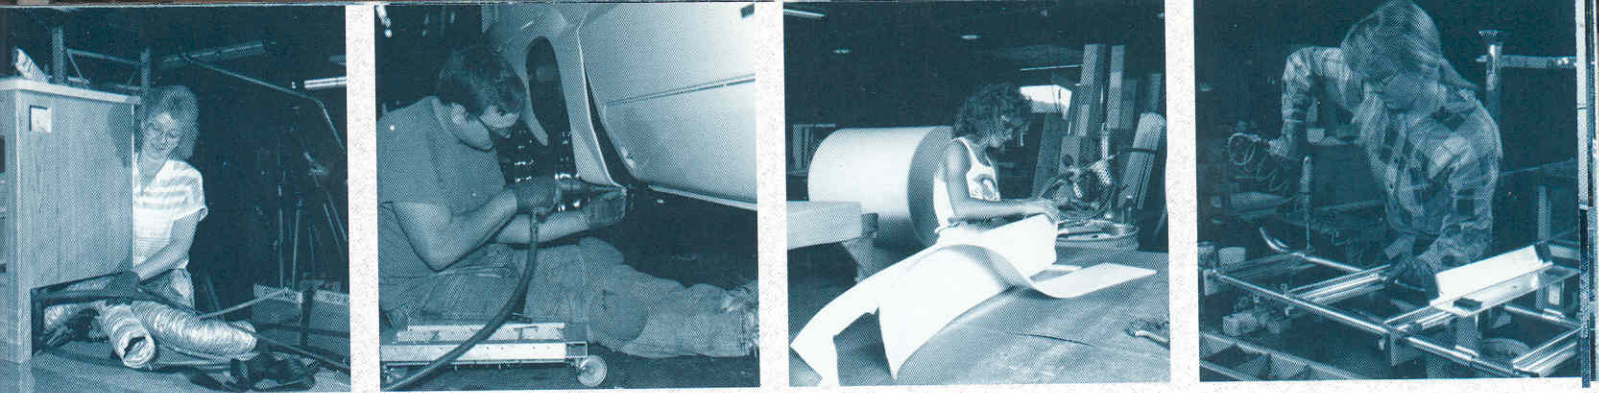

The luxurious living area of the Adventurer Diesel Pusher shares the Home Comfort Design concept found in the front engine Adventurer. Note the beautiful blue hues with cotton candy accents of the Tapestry decor group. Extensive cabinetry, crowned vinyl ceiling and Scotchgard Protector™ treated carpets and fabrics are special features.

Travel The Open Road In Quiet Comfort.

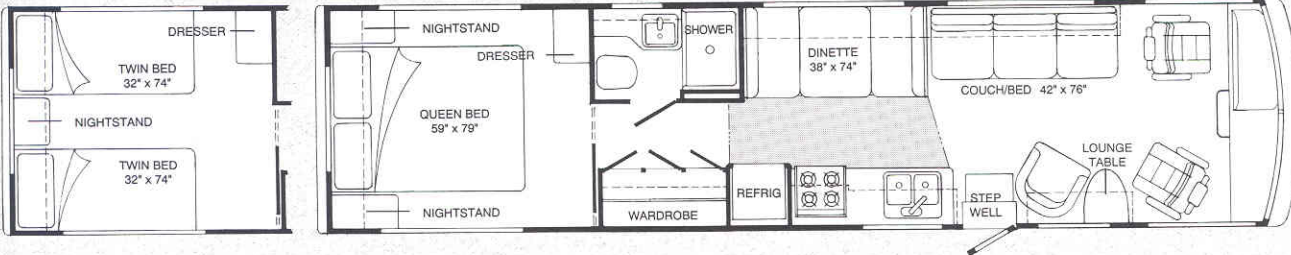

Start with a smooth-riding, 22,000 lb. GCWR Oshkosh chassis, add a powerful 190 horsepower, turbo-charged and after-cooled, American-made Cummins diesel engine, and you have a motor home that will climb, tow and handle with ease. With the engine located in the rear, quiet conversation becomes the norm as noise is left behind. That's the Adventurer® Diesel Pusher: muscle, mileage and all the durable quality of Winnebago. At an affordable price that was never before possible.

Right: Up front, the accent is on flat-floored openness and unencumbered entry/exit. In place of the box-like engine cover lies a spacious, easy access, below-floor storage area with oak storage cabinet and beverage tray above.

Dimensions shown are for sleeping space only and dashed lines denote overhead storage. Shaded area indicates optional vinyl galley floor covering.

Right: One test drive and you'll agree: rear engine performance makes open road traveling pure pleasure. The engine service door is fully lowered for maximum air flow and swings up for easy access to the engine bay.

SPECIFICATIONS:	34RQ
Length	34'
Exterior Height w/Roof Air	11'5"
Exterior Width	8'0"
Interior Height	6'8"
Interior Width	7'7"
Fuel Capacity (Gals.)	90
Fresh Water Capacity (Gals. w/Heater)	106
Holding Tank Capacity (Gals.)	
Toilet	55
Shower/Galley/Lavatory	50
LP Capacity (Lbs.)	130
Electronic Ignition Furnace (BTUs)	34,000
GVWR (Lbs.)	18,000
Wheelbase	228"

Oshkosh XC-18RD Chassis

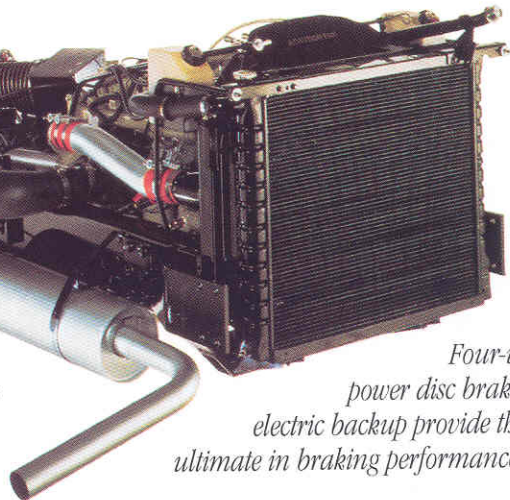

Enjoy the powerful torque and exceptional mileage that come standard with an efficient diesel engine. You may achieve lower operating costs and decreased engine maintenance.

The wide-track stability of the 77" front axle maximizes vehicle handling and maneuverability.

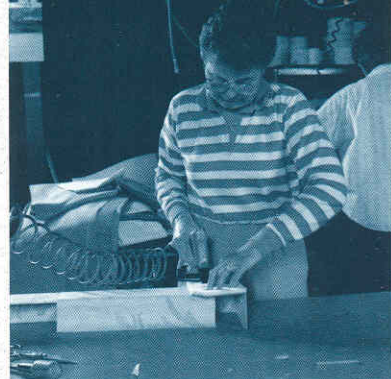

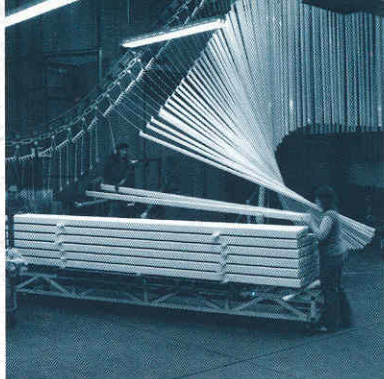

Oshkosh X-Line rear engine chassis with leaf-spring suspension provides a smooth, quiet ride that minimizes noise, heat and vibration.

Allison AT-542 4-speed automatic transmission and 3.31:1 axle ratio enhance driving comfort and passing power. The smooth shifting transmission and diesel torque make towing a breeze, even on uphill grades.

5.9L turbo-charged, after-cooled Cummins® diesel features fewer moving parts and lower operating temperatures for increased engine lifespan.

Four-wheel power disc brakes with electric backup provide the ultimate in braking performance.

1992 Adventurer Diesel Pusher

STANDARD EQUIPMENT:

AUTOMOTIVE FEATURES:

Rear Engine Oshkosh Chassis: 5.9L Turbo-Charged/After-Cooled 190 H.P.
 Cummins Diesel Engine
 Allison AT-542 Automatic Transmission w/Overdrive & Cooler
 I-Beam w/Leaf Spring Front Suspension
 Leaf Spring Rear Suspension
 923-CCA Battery, 100-Amp. Alternator
 Multi-Function Signal Lever (w/Intermittent Wipers/Washer & Headlight Control)
 Radial Tires & Spare
 Emergency Start Solenoid (Dual Battery Switch)
 Auxiliary Battery Disconnect Switch
 Automotive Air Conditioning/Heating
 Power Assist Steering w/Tilt Wheel
 Cruise Control
 Electronic Tune AM/FM/Cassette Stereo w/Four Speakers
 Radio Power Switch for Main or Auxiliary Battery
 Bucket Seats (Reclining, Swivel/Slide, Armrests, 3-Point Retracting Seat Belts, Lumbar Support & Remote Control)
 Sliding Driver & Passenger Windows
 Overhead Storage Cabinet In Driver/Passenger Area
 Oak Cab Storage Compartment w/Beverage Tray
 Sunvisors w/Map Pockets
 Front Wraparound Curtain w/Track

APPLIANCES/SAFETY FEATURES:

34,000-BTU Electronic Ignition Furnace
 4-Burner Range w/Bi-Fold Cover & Large Oven w/Glass Door
 Microwave Oven
 Vented Range Hood w/Fan & Light
 Monitor Panel - Features Water, Holding & LP Tank Levels, Water Pump Switch, Water Heater Ignition Switch, Coach Battery Condition
 Large Double-Door Refrigerator/Freezer
 High Capacity Demand Water Pump w/Three Convenient Switch Locations
 Recessed Double Stainless Steel Sink w/Sink Cover
 6-Gal. Electronic Ignition Water Heater
 Water Heater Winterization By-Pass Valve
 110-V/12V Control Center: 9-Amp. Battery Charger, 45-Amp. Converter, 12V Fuses & 110V Circuit Breakers
 LP Leak Tester
 Smoke Detector
 Ground Fault Interrupter
 10-B.C. Fire Extinguisher

INTERIOR FEATURES:

Scotchgard Protector™ Applied To All Carpeting & Fabrics
 Padded Vinyl Ceiling Headliner
 Coach Vent(s)
 Aisle Courtesy Light by Entrance Door
 Cabinet Doors - Oak Framed w/Mirror & Oak Inserts
 Decorator Wall Clock
 Decorator Wall & Table Lamps
 Paper Towel Holder
 Mini-Blinds (Galley, Bath)
 Shower w/Flexible Head, Surround & Curtain
 Marine Toilet w/Sprayer
 Mirrored Medicine Cabinet
 Bathroom Wall Mirror
 Make-Up Lights
 Bath Accessories: Towel Ring, Towel Rack & Tissue Holder
 Powered Lavatory Vent

*Not all standard features or options are available on all models. See your dealer for availability of specific options.

Winnebago's continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Some items shown may be extra-cost options.

*Below - **Colossal closet:** Spacious three-door wardrobe in the 34RQ offers plenty of room for his and hers. Includes mirrored doors, generous shelving, and multi-level closet bars. Sliding wood divider doors at each end of the hallway seal off the galley and bedroom.*

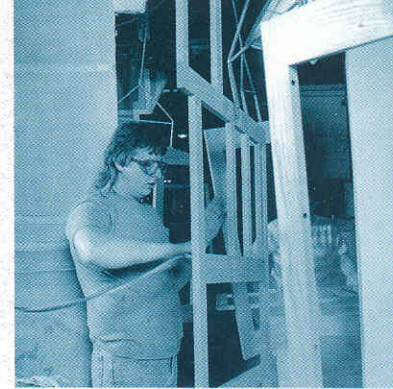

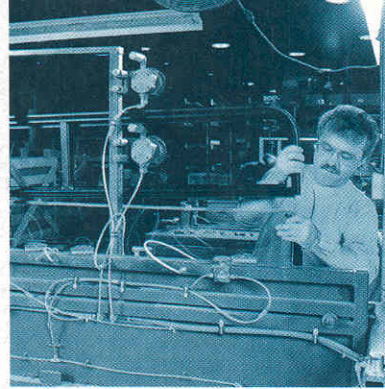

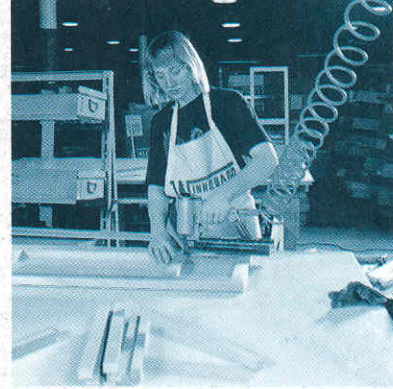

All The Luxury Of A Master Suite.

*Above - **Fit for a queen:** A walk-around island queen with 'Deluxe Supreme' mattress cradles travelers in nighttime comfort. Color-coordinated comforter and pillow shams accent the restful atmosphere. Oversized screened windows tip-out for added ventilation. Wall-mounted reading lamps, attractive overhead cabinetry and twin nightstands complete the attractive and restful decor.*

*Right - **Space for drawers:** A convenient dresser with travel-secure wood drawers and tilted TV shelf above occupies a bedroom corner in the 34RQ model. All bedrooms include a handy second generator switch. A remote control 9" color TV for the bedroom is also optional.*

*Above - **More space for storage:** No wasted space in Adventurer - an abundant storage area below the bed is easily accessible, providing plenty of space for bedding and other travel necessities.*

An Exterior Designed For The Open Road.

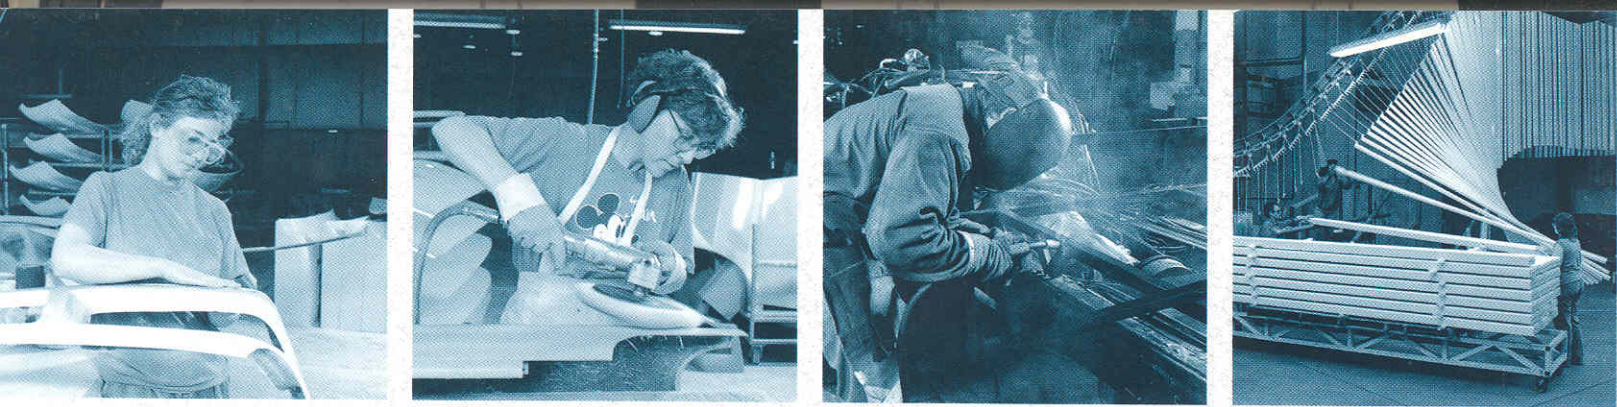

Up on the roof: Adventurer's single-piece, crowned fiberglass roof won't tear, puncture or deteriorate from sunlight and heat. Ask your dealer about the exclusive 10-year warranty. Note the standard TV antenna system and step-through luggage rack and ladder.

Head-on performance: Adventurer's aerodynamic front end combines the security of welded steel construction with stylish, easy-maintenance fiberglass. The panoramic, tinted windshield and side windows are more than 6" higher than those on competitive models. Quad headlights, recessed running lights and a full-width engine access door accentuate Adventurer's traveler-friendly design.

Hook-up with convenience: The utility center spotlights Adventurer's traveler-friendly useability: Electrical, cable TV, and city water connections are all combined in a single compartment, which also includes the holding tank valves. Each section has its own hatch to enable continuous use with the main door closed. Note the easy-maintenance plastic floor, tank valves mounted at a convenient height and the adjacent outside furnace access door.

ONLY FROM THE MOTOR HOME PEOPLE.

When you buy a Winnebago motor home, you're purchasing more than a great vehicle. You're purchasing a history of craftsmanship.

Winnebago doesn't just assemble motor homes, we are a true manufacturer. Most of our components are designed and built on-site, in the industry's largest manufacturing facility. We produce all of our own structural parts. Fiberglass. Aluminum. And most of our own furniture, including hand-crafted cabinetry.

That's the only way Winnebago builds motor homes. It's why we build them so well.

and services, and meet new friends who share your enthusiasm for motorhoming. For more information, call W.I.T. at 515-582-6874.

Only the best parts ever see the inside or outside of a Winnebago. Our comprehensive testing program ensures it, on-site, in the industry's largest testing facility.

Our own half-mile test track, ridden with bumps, chuck holes and cobblestones measures structural soundness. Rain-tunnel high pressure hoses blast vehicles with the force of a thunderstorm. Vibration, rust, chip resistance, weight distribution... the testing goes on and on.

Quality assurance. It's just one reason why Winnebago motor homes retain a higher resale value than any competitive motor homes.

motor homes on display. Discover how they're constructed. And tour the industry's most impressive manufacturing complex. Best of all, you'll witness first hand the Winnebago Industries commitment to motorhoming.

Call 1-515-582-3535 for further information.

Behind every Winnebago motor home stand Winnebago people: designers, engineers, assemblers, quality inspectors, dealers and hundreds more. Each is an integral part of Team Winnebago. All work together to provide you with the finest motor home you can buy.

For 33 years, quality recreational vehicles have been our business. That long-term commitment continues today.

Pride in our team. Pride in our product. For you, it means pride of ownership.

As a Winnebago owner, you are invited to join the Winnebago-Itasca Travelers (W.I.T.) Club. Enjoy rallies and caravans, receive dollar-saving discounts

To see how the best-built motor homes are created, come to Forest City, Iowa and take the free Winnebago Industries factory tour. You'll preview
